

**AMENDMENTS**

Please amend the above-identified application as follows:

**In the Claims**

Please cancel claims 7 and 15-23 without prejudice, waiver or disclaimer.

In accordance with 37 C.F.R. § 1.121, please substitute the following clean copy text for the pending claims of the same number:

1        1. (Three Times Amended) An organic light emitting device, comprising:  
2             an electrode;  
3             a conducting layer;  
4             a current self-limiting structure between said electrode and said conducting ✓  
5        layer; and  
6             an organic stack located adjacent said electrode and separated from said  
7        conductive current self limiting structure by said electrode.

1        10. (Three Times Amended) A method for increasing the reliability of an  
2        organic light emitting device, comprising the steps of:  
3            forming an organic light emitting device, including an organic stack; and  
4            incorporating a current self-limiting structure within said organic light  
5        emitting device, said current self-limiting structure formed between an electrode and a  
6        conducting layer and separated from said organic stack by said electrode.
